

# Andrew Claeys

Ever since I was 10 years old, I have developed an obsession with football. Coaching, playing, analyzing, or managing players and playbooks have always been a hobby of mine. After years of learning about the rules, lives, and standards of football, I now want to apply this knowledge and obsession to a career.

# About Me

Currently, I am attending college classes at Finger Lakes Community College and taking classes such as Applied Biology, Psychology, Sociology, and will soon be taking Accounting to work towards a business degree. While attending, I am currently studying at PTECH, an early college high school as a junior, learning professional skills & working on projects in groups.

Born in Newark, New York, football has been my obsession since I was 10 years old, and I have been working to try to make it a lifelong career by studying multiple fields and researching self-help tips. I am a die-hard Buffalo Bills fan and would love to stay in the area to eventually work for them in the long-term whether as a scout, a gm, a coach, or a trainer.

My next step is to try to volunteer at a school to get some experience with coaching and football!

# Letters of Reccomendation

Written by teachers at the  
Newark Central School District  
in New York.

Student: Andrew Claeys

Teacher: Jordan Penkitis

Content: Math (algebra 1)

1. Andrew is a great student who consistently works hard and puts care into his work. He does very well in small groups collaborating with peers. This course is more student centered where they work in groups to discover the math and then we summarize and talk about the math as a class. This requires students to have responsibility of their learning, which Andrew has. He asks questions when he gets stuck, works well with his group mates, participates in class, and turns in all of his assignments on time.
2. I would say that Andrew does not have any challenges in math from what I see in class. If anything, sometimes his group moves at a pretty quick pace which in math can sometimes lead to making calculation errors or other general mistakes. However, in math, mistakes can also be one of the best ways to learn and he is always quick to correct his mistakes and understand why the new answer is correct.
3. I think that Andrew is capable of successfully completing work at the high school regents level and at the college level because he is a very motivated student. I have him in a regents course right now and he is excelling in this course. I think that when faced with an extra challenge like adding a college course, he will meet that challenge with great work ethic and commitment.
4. Andrew demonstrates good social skills by being able to work in whatever group he is placed in in class. He treats all of his classmates with respect and kindness. When he comes into class he gets right to work with his group and resists the distractions of the class around him. He is responsible for his work even if he is absent, emailing me to let me know he will not be in class that day and what he will be missing. I think that Andrew would be a great fit for PTECH.

PTECH Recommendation

Student: Andrew Claeys

Teacher: Ms. Stacy Waite

Teacher email: [stacy.waite@newarkcsd.org](mailto:stacy.waite@newarkcsd.org)

Content area: ELA

1. Andrew has a number of strengths as they pertain to English Language Arts as well as an 8<sup>th</sup> grade student in general. He has exceptionally strong writing skills and uses higher-level vocabulary. He pays great attention to detail and includes all of the criteria with proper spelling and punctuation. He often goes above and beyond to include pertinent details and evidence from the text, showing strong comprehension.
2. Andrew has few, if any, challenges that I have witnessed. He is very quiet in class and does not always contribute a lot, however it has never prevented him from advocating for himself if he has clarifying questions.
3. Andrew is more than capable of completing higher-level tasks that are demanding of his time and attention. He is a focused student and works well independently. He is quick to follow our daily routine and has his materials out and ready to go, even if peers are struggling to get settled.
4. Andrew is one of my most responsible 8<sup>th</sup> graders as evidenced by his dedication to academics outside of school. If I post an assignment to Schoology, for example, he is quick to review the documents even if they are set up for the following day's class. If he is absent or even predicts that he may be, he initiates communication by emailing all of this teachers in advance so that he does not fall behind. I have also witnessed him being kind to peers who are struggling by gently refocusing them or explaining directions. He is well liked by his peers and would be a great fit at PTECH.

*S Waite* 2/13/23

## ANDREW CLAEYS

Newark, NY | 315-830-6587 | lilandyboy09@gmail.com |

A student striving at an early college high school with High Honor Roll, striving to be a coach in football, and working towards his associate's degree in business accounting. I am currently taking classes such as Applied Biology, Psychology, and a Leadership class to strive towards these goals.

### EXPERIENCE

JAN 2025 - ???

#### BUSINESS ACCOUNTING

Starting to learn more in the business front and how to manage finances, analyze, adapt, and strategize around financial problems

SEP 2025 - JUNE 2026

#### COLLEGE CLASSES TOWARDS BECOMING A COACH

I am taking classes to learn more about physical and mental health towards reaching my goals, such as Applied Biology, Psychology, Sociology, and Leadership, to become a coach or a trainer for players in the football industry.

### EDUCATION

SEPT 2020 - JUNE 2027

#### AWARDS

Have received third place in a PTECH engineering competition, built by collaborating with a team and going against plenty of schools from around the state of New York. Also, I have received plenty of awards for Student of the Month and High Honor Roll awards across the years.

SEPT 2025 - ???

#### SCHOOL

Attending PTECH (Pathways to Early College High School) and working with FLCC (Finger Lakes Community College) gives me opportunities to develop my skills and knowledge in the fields of coaching and managing.

### SKILLS

- Strong knowledge of mental health and nutrition
- Possesses great charisma and acts as a great motivator.
- High emotional intelligence and can act in stressful situations.
- I can learn tasks and adapt quickly when doing tasks.
- Independent

### INTERESTS

- Embracing Nature
- Self-Care
- Chess
- Coaching
- Analytics
- Competing
- Winning
- Reading
- Studying the Game of Football

# Experience

**Clubs/ Sports:** Chess Club, Soccer, Newspaper/ Writing Club

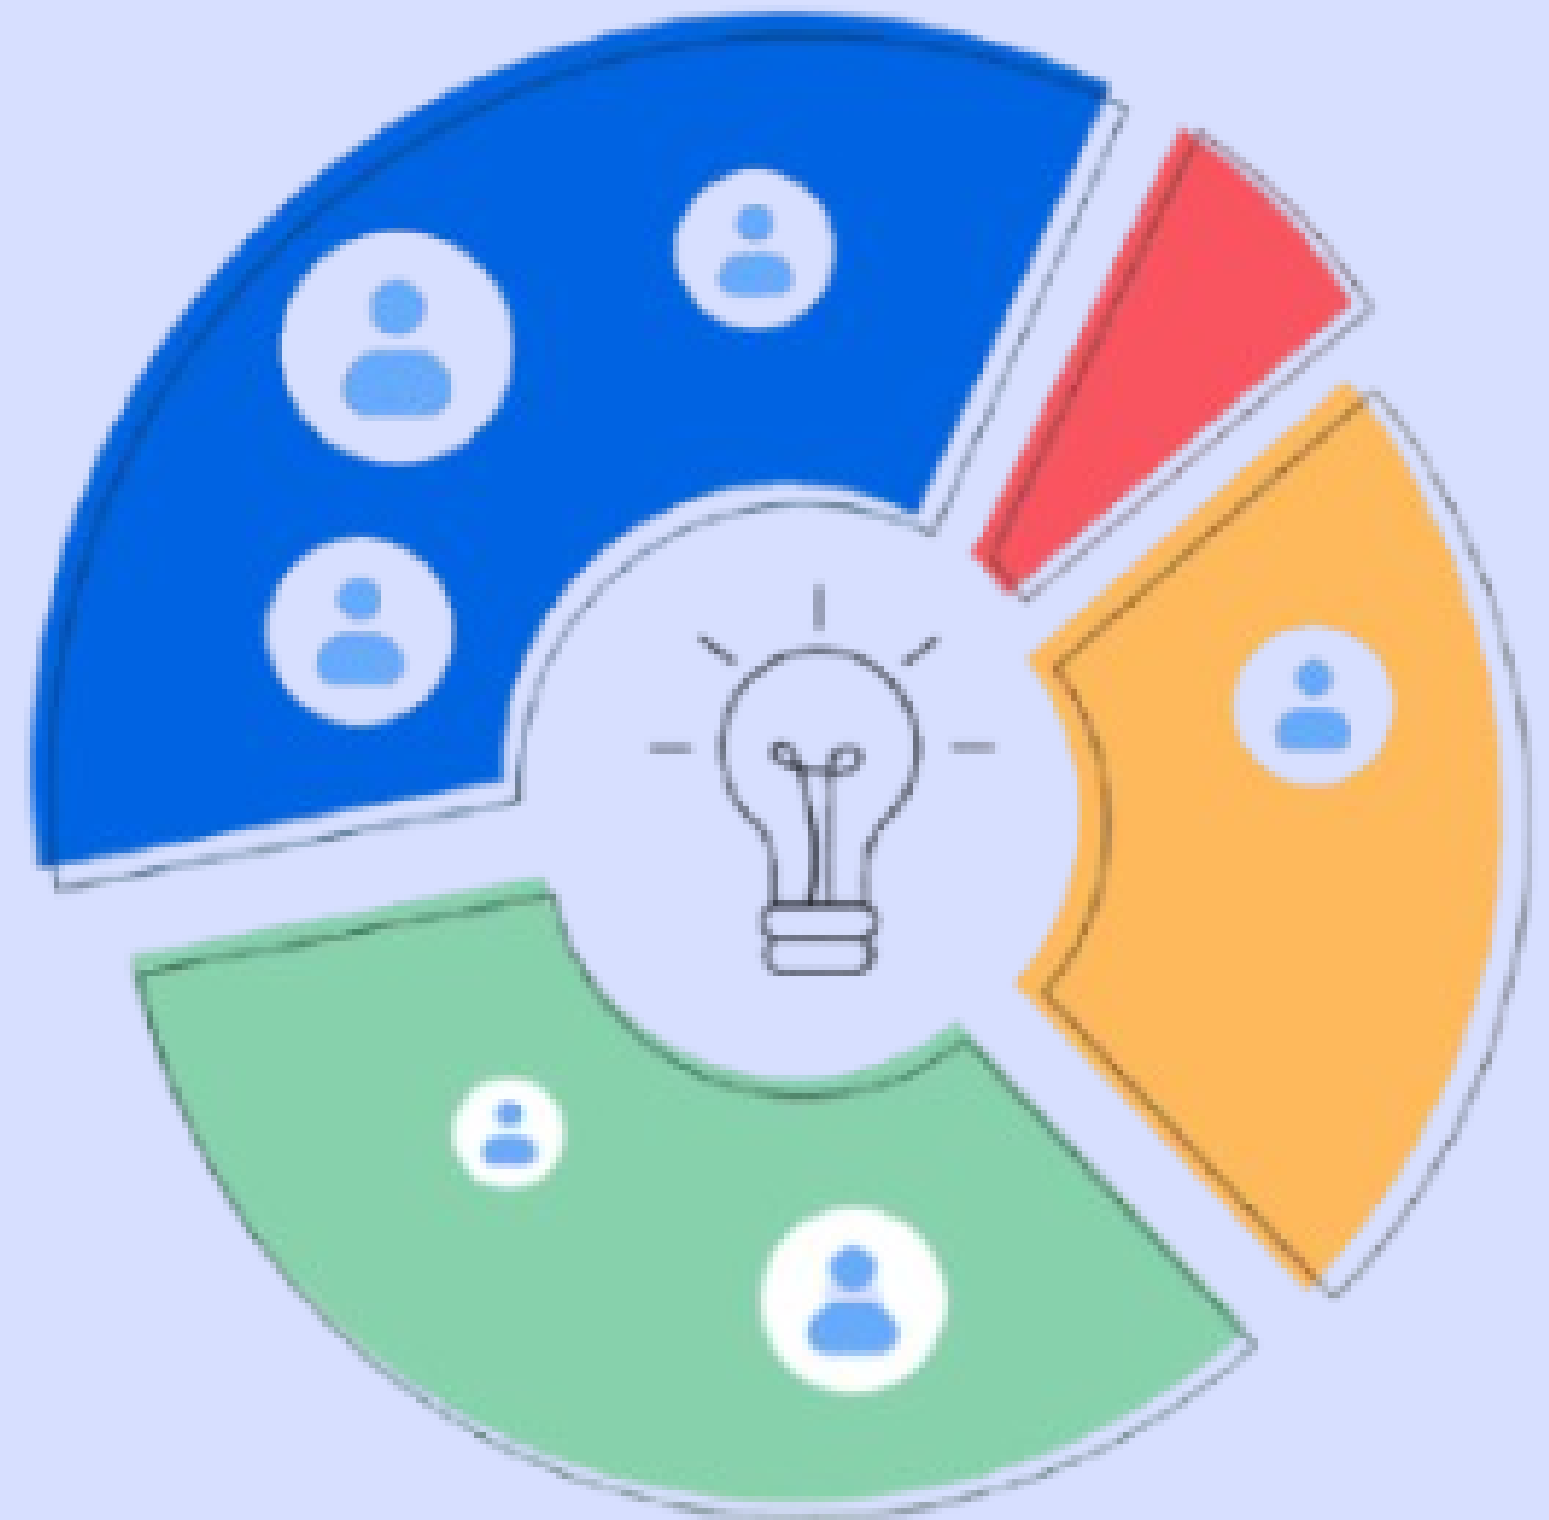

**Jobs:** Website Owner on self-care

**Classes:** Psychology, Sociology, Business Accounting, Applied Biology, Statistics

# Skills

**Hard Skills:** Analytics, Writing, Simple Economics, Data Analysis

**Soft Skills:** Communication, Motivating, Teamwork, Adapting, Organizing, Time Management, Planning
